

UNTAPPED: THE HIDDEN TALENT POOL

Hello Valued Partner:

CareerSource Capital Region (CSCR) is excited to announce its sixth annual Talent Innovation Summit, engaging business leaders, human resource professionals, education, economic development, and workforce development partners to address the area's talent needs. This year's theme is "Untapped: The Hidden Talent Pool."

The Talent Innovation Summit will be held on Wednesday, April 26, from 9:00am until 1:30pm at the Florida State University's Turnbull Conference Center.

We continue to bring nationally recognized experts to discuss trends and issues surrounding employers' needs for skilled talent. We engage local leaders to speak on local talent issues and work to find solutions together.

To make this event a success, we are reaching out to major supporters like you to help underwrite the associated costs of this event. There are several levels of partnership in which your company can participate and can be found on the following page.

We look forward to receiving your notification of commitment and positive feedback of support by December 9, 2022 and your payment rendered no later than December 20, 2022.

Respectfully yours,
